Hotel reservation revenues amounted to RMB410 million (US\$65 million) for the second quarter of 2012, representing a 12% increase year-on-year, primarily driven by an increase of 20% in hotel reservation volume and partially offset by 7% decrease of commission per room night. The decrease of commission per room night was primarily due to promotional activities. Hotel reservation revenues increased by 12% quarter-on-quarter, primarily due to seasonality.

Air ticket booking revenues for the second quarter of 2012 were RMB404 million (US\$64 million), representing a 16% increase year-on-year, primarily driven by an increase in air ticketing sales volume. Air ticket booking revenues increased 12% quarter-on-quarter, primarily due to seasonality.

Packaged-tour revenues for the second quarter of 2012 were RMB134 million (US\$21 million), representing a 24% increase year-on-year due to the increase of leisure travel volume. Packaged-tour revenues decreased 20% quarter-on-quarter, primarily due to seasonality.

Corporate travel revenues for the second quarter of 2012 were RMB49 million (US\$8 million), representing a 25% increase year-on-year, primarily driven by the increased corporate travel demand from business activities. Corporate travel revenues increased 27% quarter-on-quarter, primarily due to seasonality.

For the second quarter of 2012, net revenues were RMB974 million (US\$153 million), representing a 17% increase from the same period in 2011. Net revenues for the second quarter of 2012 increased by 7% from the previous quarter.

Gross margin was 75% in the second quarter of 2012, compared to 77% in the same period in 2011 and 75% in the previous quarter.

Product development expenses for the second quarter of 2012 increased by 52% to RMB208 million (US\$33 million) from the same period in 2011, and increased by 6% from the previous quarter, primarily due to an increase in product development personnel related expense and share-based compensation charges. Excluding share-based compensation charges (non-GAAP), product development expenses accounted for 18% of the net revenues, increased from 14% in the same period in 2011 and remained consistent with that in the previous quarter.

Sales and marketing expenses for the second quarter of 2012 increased by 54% to RMB217 million (US\$34 million) from the same period in 2011, and increased by 18% from the previous quarter, primarily due to an increase in sales and marketing related activities and personnel related expense as a result of our recently launched intensified marketing campaigns as well as our efforts to expand in the leisure travel market. Excluding share-based compensation charges (non-GAAP), sales and marketing expenses accounted for 21% of the net revenues, increased from 16% in the same period in 2011 and increased from 19% in the previous quarter.

General and administrative expenses for the second quarter of 2012 increased by 44% to RMB139 million (US\$22 million) from the same period in 2011, primarily due to an increase in administrative personnel, share-based compensation charges and the incremental turnover tax due to the new value-added tax reform. General and administrative expenses for the second quarter of 2012 increased by 8% from the previous quarter, primarily due to an increase in share-based compensation charges and the incremental turnover tax due to the new value-added tax reform. Excluding share-based compensation charges (non-GAAP), general and administrative expenses accounted for 8% of the net revenues, increased from 5% in the same period in 2011 and remained consistent with that in the previous quarter.

Income from operations for the second quarter of 2012 was RMB168 million (US\$26 million), representing a decrease of 37% from the same period in 2011 and a decrease of 5% from the previous quarter. Excluding share-based compensation charges (non-GAAP), income from operations was RMB277 million (US\$44 million), representing a decrease of 22% from the same period in 2011 and remained consistent with that the previous quarter.

Operating margin was 17% in the second quarter of 2012, compared to 32% in the same period in 2011, and 19% in the previous quarter. Excluding sharebased compensation charges (non-GAAP), operating margin was 28%, decreased from 43% in the same period in 2011 and 30% in the previous quarter.

The effective tax rate for the second quarter of 2012 was 45%, increased from 16% in the same periods of 2011 and increased from 28% in the previous quarter, primarily due to the provision of 5% PRC withholding tax related to the dividends that our PRC subsidiaries will pay to our Hong Kong subsidiary to fund the recently announced share repurchase program, which was partially offset by the preferential tax treatment of two PRC consolidated entities. Those two entities were approved to apply the preferential tax rate of 15% under the Corporate Income Tax Preferential Policies for China's Western Region. This preferential status is effective retroactively as of January 1, 2011. Before the company obtained the official approval for the preferential tax treatment, those entities applied the statutory tax rate of 25% for 2011 and first quarter in 2012.

Net income attributable to Ctrip's shareholders for the second quarter of 2012 was RMB120 million (US\$19 million), representing a decrease of 55% from the same period in 2011 and a decrease of 29% from the previous quarter. Excluding share-based compensation charges (non-GAAP), net income attributable to Ctrip's shareholders was RMB228 million (US\$36 million), representing a decrease of 35% from the same period in 2011 and a decrease of 15% from the previous quarter.

Diluted earnings per ADS were RMB0.81 (US\$0.13) for the second quarter of 2012. Excluding share-based compensation charges (non-GAAP), diluted earnings per ADS were RMB1.56 (US\$0.24) for the second quarter of 2012.

As of June 30, 2012, the balance of cash and cash equivalents, restricted cash and short-term investment was RMB5.3 billion (US\$831 million).

Business Outlook

For the third quarter of 2012, the Company expects to continue the net revenue growth year-on-year at a rate of approximately 15-20%. This forecast reflects Ctrip's current and preliminary view, which is subject to change.

Recent Development

In June 2012, Ctrip announced a new share repurchase program up to US\$300 million approved by board of directors. Ctrip expects to fund the repurchase out of its existing cash balance, including cash dividends that it receives from its PRC subsidiaries. The dividends paid by those PRC subsidiaries to Ctrip through its Hong Kong subsidiary will be subject to a 5% PRC withholding tax amounting up to US\$15 million.

As of July 24, 2012, Ctrip cumulatively purchased approximately 11.3 million ADSs with a total consideration of US\$202 million from open market under three existing share repurchase plans adopted in 2008, 2011 and 2012.

Among other things, quotations from management and the Business Outlook section in this press release, as well as Ctrip's strategic and operational plans, contain forward-looking statements. Ctrip may also make written or oral forward-looking statements in its periodic reports to the U.S. Securities and Exchange Commission on Forms 20-F and 6-K, etc., in its annual report to shareholders, in press releases and other written materials and in oral statements made by its officers, directors or employees to third parties. Forward-looking statements involve inherent risks and uncertainties. A number of important factors could cause actual results to differ materially from those contained in any forward-looking statement. About Non-GAAP Financial Measures

To supplement Ctrip's unaudited consolidated financial statements presented in accordance with United States Generally Accepted Accounting Principles ("GAAP"), Ctrip uses non-GAAP financial information related to product development expenses, sales and marketing expenses, general and administrative expenses, income from operations, operating margin, net income, and diluted earnings per ordinary share and per ADS, each of which is adjusted from the most comparable GAAP result to exclude the share-based compensation charges recorded under ASC 718, "Stock Compensation" for 2011 and 2010. Ctrip's management believes the non-GAAP financial measures facilitate better understanding of operating results from quarter to quarter and provide management with a better capability to plan and forecast future periods.

Non-GAAP information is not prepared in accordance with GAAP and may be different from non-GAAP methods of accounting and reporting used by other companies. The presentation of this additional information should not be considered a substitute for GAAP results. A limitation of using non-GAAP financial measures is that non-GAAP measures exclude share-based compensation charges that have been and will continue to be significant recurring expenses in Ctrip's business for the foreseeable future.

Reconciliations of Ctrip's non-GAAP financial data to the most comparable GAAP data included in the consolidated statement of operations are included at the end of this press release.
